

## **PRESS RELEASE**

### **GSE MARKETS REMAIN OPEN**

The Ghana Stock Exchange wishes to inform the investing public that all its markets remain open for trading and that the market closing time has been extended by an hour to 4:00pm today, same as yesterday.

The Exchange wishes to assure the investing public that, aside the internet, our licensed traders can access our trading platforms via a wide area network and a local area network on our Trading Floor, enabling trades to be executed despite the nationwide interruptions to internet services.

We are closely monitoring the markets and will provide updates as necessary.

**Dated this 15<sup>th</sup> Day of March 2024, in Accra.**

#### **About Ghana Stock Exchange**

The Ghana Stock Exchange (GSE) was established in November 1990 with the mission to provide an efficient securities market for national economic development through access to capital and investment. GSE has facilitated the mobilization of long-term capital by corporate bodies, businesses, and the government, and provided a reliable platform for the trading of issued securities. The GSE runs three markets: the Main Market; Ghana Alternative Market (GAX) for SME's and Ghana Fixed Income Market (GFIM) for trading of government and corporate bonds.
